

June 18, 1968

Subject: Contract

25X1

Gentlemen:

Transmitted herewith are three (3) copies of the Total Estimated Cost Summaries for the subject contract.

Separate summaries for quantities of one (1) and two (2) units are submitted for each of the following conditions:

- I. Reduction in data requirement from class "B" to class "C" type engineering drawings.
- II. Reduction in data requirement, both engineering drawings and manual.

The cost summaries are based upon the estimated recoverable rates which are set forth below:

	<u>1967</u>	<u>1968</u>
Optical Systems Division Overhead	151.0%	151.0%
General and Administrative Expense	17.7%	17.1%

It is estimated that an order for one (1) unit would require four (4) to five (5) months for delivery, and an order for two (2) units would require five (5) to six (6) months.

Very truly yours,

25X1
